SUMMARY

Marvellous Adeoye has designed responsive websites that met client specifications. She also employed code review tools to transfer knowledge and evaluate various solutions to problems. Also, she has collaborated with a team of developers to implement new features, resolve issues, and update existing applications and related visually appealing web page designs.

Marvellous has assessed user requirements and software specifications to ensure design feasibility within budget and deadline constraints and refactored the non-functional attributes to enhance performance without altering external functionality.

Marvellous composes clean, testable, and maintainable code.

SKILLS

- **Database:** MySql, SQLServer
- **Programming Languages:** C#, JavaScript, Typescript.
- **Frameworks:** ASP.Net, React Js.
