SUMMARY

Marvellous Adeoye is a skilled web developer with a proven track record in designing responsive websites that precisely align with client requirements. Proficient in employing code review tools for efficient knowledge transfer and solution evaluation, Marvellous collaborates seamlessly with development teams to implement new features, resolve issues, and update existing applications. With a keen eye for visually appealing web design, Marvellous enhances user engagement through innovative solutions and compelling web page designs.

Marvellous adeptly evaluates user requirements and software specifications to ensure that design feasibility aligns with budget and deadline constraints. She proficiently refactors non-functional attributes to enhance performance without impacting external functionality, ensuring optimal system efficiency.

Marvellous crafts code that is clean, testable, and easily maintainable.

SKILLS

- **Database:** MySQL, SQLServer, MongoDB.
- **Programming Languages:** C#, JavaScript, Typescript, Dart (Flutter), Node.js
- **Frameworks:** ASP.Net, React Js, Next Js, Vue Js, Flutter, React Native, Express.js
- **Web Technologies:** HTML, CSS, Tailwind, SASS, REST API.
- **Software Design:** Software Architectures, Designs Patterns, OOP(Object-Oriented Programming), Git Version Control, Microservices Architecture.
- **Methodologies:** TDD(Test Driven Development), Mock Test, AgileScrum.

EXPERIENCE

FullStack Software Engineer

SYSBEAMS | JUN 2022 - PRESENT

- Created a tool for monitoring, evaluation, analysis, and learning for IDH Africa.
- Developed responsive, user-centric web applications using Next.js and TypeScript, ensuring seamless integration of frontend and backend systems.
- Implemented backend services with C#, handling business logic, data flow, and API communication to power the platform's key features.
- Optimized the database to accommodate massive datasets, resulting in quick performance even when several users access the system at the same time.
- Created and managed databases to ensure effective storage, retrieval, and manipulation of data about global value chains, stakeholders, and sustainability measures.
- Contributed in the disassembly and integration of services, optimizing functionality and enhancing the efficiency of the IDH Melita application.
- RESTful APIs were integrated to allow for smooth data flow between frontend and backend systems, resulting in fast, real-time updates for a better user experience.
- I implemented IDH convenes, co-creates, and co-finances inclusive and sustainable solutions that enable value creation for people and the planet.
- Developed and managed a registration portal for JALSA (an event that takes place annually).
- Implemented a clean, testable, and maintainable codebase to facilitate efficient development and future enhancements.
- Collaborated with backend developers and designers to integrate frontend components seamlessly into the application.
- Conducted code reviews and participated in discussions to optimize code quality and performance.
- Actively contributed to sprint planning, task estimation, and project meetings to ensure timely delivery of features and enhancements.

Frontend Developer

Equidaecore (UK) | AUG 2023 - PRESENT

- Worked on innovative approaches and technologies that could be implemented worldwide to minimize waste generation and maximize resource efficiency.
- Collaborated with colleagues in developing a user-responsive application using Next.js and Tailwind CSS.
- Worked closely with UI/UX designers and backend developers to ensure project success.
- Currently working on a School Management System designed to streamline and automate various administrative and academic tasks within educational institutions.

FullStack Software Engineer

YUSCOMSOFT, Abeokuta, Ogun State | MAR 2021 - AUG 2021

- Worked with a team of engineers in developing a University Management System that manages the affairs of students and staff in the university.
- Collaborated on developing an HR system that synchronizes with an API Gateway integrating Microsoft Dynamics NAV database.

EDUCATION

BSc. Computer Science | Second Class Upper

Federal University of Agriculture • Abeokuta, Ogun State

Oct 2019 - Aug 2024

Code Learners Hub

Abeokuta, Full Stack Web Development

Mar 2020 - July 2020
